

REAL AND RAW PODCAST with AGENT 0 | EPISODE 2 | "MR. IRRELEVANT" DESJUAN JOHNSON

What's up y'all We back with another episode of the Real and Raw podcast with A zero I'm Jordan Anderson To my left for me We got my man my brother Dewan Johnson defensive lineman for the Rams Mr Irrelevant draft pick What's going on bro What's up How you doing bro I'm good I'm blessed Can't complain Finally Good to see you out here bro I've been out here for what three months you for a little while though We just finally getting up though but I just wanna say bro I'm definitely proud of you For real for real bro You living our dream that you feel me said we was gonna do when we was little You feel me I'm obviously working towards what you what you got to you feel me So I'm definitely proud of you for sure Appreciate it bro You know next up I gotta get I gotta get your flowers I appreciate it though bro You know it's been a long journey like since the Titans like we both been playing with the other like all our life and then like high school they didn't go to college We like right Like that's crazy then you know just like life is just crazy You just got to go with it you know every day to be better than your yesterday best That's all you can do Speaking of rivals I just wanna let you know Um you too too you could have swear Like when I first committed to BG you said I was gonna be on four but I'm just letting you I mean championships you want Ok I mean how many championships you want No That's cool though I ain't worried about as long as we beat That's cool That's good to win a game You want to look Yeah that's cool That's that's the rings the ring Cool I guess How many you got you got you got you got it but I should have I'm glad you didn't wear it It's cool But no man just tell everybody you know for the people that don't know you like you feel me where you came where you grew up at where you from you feel me how you get to the league so forth and so on Well I grew up on the east side of Detroit Michigan six mile Like it was it was kinda rough uh growing up but like you know playing playing football at a young age consistently every day just like kept you kinda from out the way Like you just knew how to maneuver around You know people can be from distraction you know definitely kept you from distraction like that in the game But you know that no like without football I don't know where I'd be honestly Like like you said like we both know we grew up together and we played on the same little

league team like you know how competitive you are and how competitive I like just somebody pushing each other their whole way to the top Like and like it's everybody can do it It's just like you gotta like every day put your mind to it Like you can't get distracted It's a grind process for sure Definitely I definitely feel like it's it's people that we didn't play with that's supposed to be a real man that that that it messed up or you feel me That was that was one step away and just couldn't finish it though So that that that like that what gives me like when you see like you know other people talent like man like I know somebody that could have easily did this and that but like she was you literally in it but it's just distractions you gotta cut out the distractions So before who you say was better at running back Me Are you what Come on I can if I got if I can put highlights what are you doing about saying it was a good running back for sure But like oh my God like like dude you like you know I got the ball the ola and stopped and turned around and watched me run but I got I got records Ok I had the I got records I got records I did everything for the team He was a punter kicker was I if I play quarterback I throw myself the ball But I'm telling you come on now you know I was him but you you you know you was good you know you probably could still play I can't no more I ain't playing running back I can't play no more Oh cool But no man So how was it You know going I know you went to you went to you went to CASS before you went to East England right So how was that What was the reason you uh you feel me got wasn't that CASS You know that's uh that's the prominent you feel me like high school in Detroit for you know bringing athletes as they say But you know what was that What was the reason CASS was uh it was a like CASS is a great school and that's when known for being in a great school especially like the football program Uh it just like loaded like my freshman everything loaded and I wanted like for me I wanted to get there now I wanted to do this now like everything I wanted to do now and like I know like from PA I'll be like I know this guy like he older than me but he's not I you know I can see myself being there right now and like my where I like where I'm at like was closer to like the Hood of Detroit and like you know downtown like it was just like a trip you know so it was easy to convert to it was like it was like more of a like this my neighborhood so I could just easily go to the school and get along and focus on football And so that's what I uh had to do and like uh uh coach I own the East English Village You know you're a great coach I went there And what was your first impression Come on bro You you too what was your first You see this you gonna see it for sure He's a

great guy you know he a great guy But no like without him like I said like I won't know where would I be Like that's one person that he take the guy that just wanna take pictures and uniforms and be around him Like ain't no more of that Like you gonna be here for football and football only like it was just like it was hell But like it was something you would rather go through the you know the truth Like is this for me Because if it's not then you gonna know start focusing on something else you're not here for No no Pictures So that's one thing like uh I'm blessed that I you know I was able to be coached by him What was your thoughts Hm So you know like you said no Coach Rod made my mentor bro I definitely like like you said without him bro you feel me You wouldn't be here You definitely played a big part and you feel me not just in my life but both ours for sure Just like the life lessons he be teaching us whether we agree with it or not for sure But I definitely you know uh I definitely appreciate yeah and coach the organization that kinda like kinda like father figure in our life for sure So they definitely I definitely I definitely appreciate him for that for sure Especially coach I was gonna say that too Like like that's like one thing about the Titans organization like you don't just play there and then go to high school then No they're gonna follow you throughout your whole career and make sure like do you need anything here goes something else here goes something like they gonna they gonna like protect you like and like it's more than a family like than just you know a little league team So they definitely played a big part in our childhood Most definitely most definitely So going to from high school you know he was getting offers one of the top you can defensive players in the state when we was doing good We was supposed to go to the championship We did go we did my senior year we carried the team Hold on hold on hold on hold on hold on My senior year We went to the championship right The city championship the the city championship About your senior Did y'all go We didn't have a see I wasn't we wasn't in the same league Did you go to a different that's that's different That's different That's different The team if I so if we were still there you think we would have went No what I mean Yeah Yeah That's crazy You think we wouldn't have went if I went on the team Y'all not going nowhere bro Ok That's that's cute of you to say I it's the truth anyway I'm proud to say that Like I said we was you feel me going went to the city championship lost playoffs or whatever you were committed to to lead No you was at bro You was a I gotta I gotta show you ain't gotta you feel me You ain't gotta show up Hey you was at one place and you committed somewhere else You go ahead and say it what was the what was

the reason for that You go ahead and say it No I'm gonna say what was the reason for that Uh I just I was committed to Western Michigan That was the first school I had committed to You out there So I uh commit to Western Michigan I liked it I liked the program when I was there but like I felt more connected to Toledo when I went there Like it was just something different Uh Coach Larry Black he played a big role in getting me there and he went to Notre Dame when I committed When he came back he came back me and hope we got uh we built a great relationship and I feel like he uh is one of the my you know biggest is like reason why I'm successful and like why I was successful in college because the way how me and him connected on the like above like you know the mind uh standpoint like we both got each other and like you know we just wanted that edge for the uh for each other So but uh Toledo just felt more of a home if that makes sense and it was closer to my home as well you know like 50 minutes down the road So like I can be home and I could be out of college even though I wasn't really going back home But it was just like you was going back home I wasn't going back home was going back home You was going back I was well but uh like it was easy for my family to travel to Toledo than it was to go to like western Michigan and stuff What was the the transition like from from high school to to college because it made it seem like you was just like dominant as soon as you got there for sure So probably it wasn't that hard for you Uh I feel like every transition to the something new is feel like like you at the bottom of a new mountain So like if uh like you know in high school like you work your way to the top and like you're the man after your senior year everybody respect you this and that then you go to college and respect everything back again So that that was one of the biggest things So you know from the way I play I feel like I earned that immediately and then like I was a true freshman So I like played in you know almost all the games like I was just playing so you know I build up that learn like that learning experience early and then like it just was on from there Mm So when did you feel like you was ready to to go to the league when you feel like you was solidified Like yeah I'm I'm I'm I'm good enough when I say good enough But like you feel like you're ready to move on uh sophomore junior senior year I mean you know like everybody everybody feel like they that guy and they head like I could do this in the lead I could do this and that in the league But that's so there's a reason why I stayed because I feel like I there's more out there for me to learn So like I uh my last year with COVID you know COVID gave us uh extra year and that was a hell of a year But uh COVID gave us an extra year But like knowing

that you could just stay and develop more before you go is one of the biggest things like I stayed like I feel like I wasn't you know of course of course in the uh of course in my head like I could play in the next level but like it was more so it's more to the game you gotta learn before you just transition to the next level So when you get there you can pick everything up easy Well well I should have asked this before What was the game where like he was like yeah you di like you you dominated college for real Uh that was my uh like like yeah colleges you feel me That was like my junior year my junior year like I started turning up like it was it a specific game or just junior year in general Every my sophomore year I my sophomore once I start racking up TFLS like this like I'm like like you know I'm just making tackles the whole time Like I'm set in like I'm doing what you know a lot of people can't do you know and they were just like hold on like I'm really that good at this then that's when you take you take it more so serious you know you only get better at that and then like they just like the love for the game you know So like my like my junior year we played uh BYU I had like three I had like three TFLS and like five tackles and you know and I got a second So you like you feel me like bro you know what you just did That would be like you know in my mind like I'm just like playing another another school game another game and like I'm like I'm just like they're cool and then come to find out that like there was a pretty decent team and they you know you got a lot of you known for having like good you can offensive lineman And so what's up though I think for me probably you probably don't think I'm talking crazy but really freshman year honestly that's just me though Ok But I only because like my I got my first start against Notre Dame They was like ranked top 10 in the nation and then I came out there I had a whole bunch of PB US tackles and I was like I was starting as a true freshman Like not too many people do that especially like a top 10 team And then I was locking down like you feel me draft picks that year like co commit play for the Bears uh Ian Book he was in the Heisman race chase clay you know but not for real Besides that though I would say junior year though is when I I felt like I really like stepped into like a different type of zone for real for real just me Like I was leading like the league interceptions and then like we had that upset against Minnesota like uh it was a big game for sure So I felt like that's when I like felt like yeah you can I can do this for sure And then like people just start like you said people just in your ear like yeah you know what you just did stuff like that So what was the so you talked about the transition going from high school to college What about just like college into to the

pros as far as like the the draft process of picking an agent senior Bowls draft grades Like how ta talk about how strenuous that that process is or how stressful it can be Uh that's one thing that everybody really don't talk about but that is like the most stressful transition of football because you have a lot of guys that never played football you know or never been in football equipment Yeah Your life basically your life is in their hands because what they should write on a piece of paper but they pay so like it's very stressed like oh his arms not long enough this and that But you like you got the best stats in college football Like what are you saying Like no defensive tackle had you know but it it can be stressful and especially finding an agent like cause like you know my dad he played football but like I didn't have like nobody else in my family like took it this far So so like I'm dealing with everything I'm dealing I'm dealing with you know by myself I can't go to my mom and ask her about this you know this and that cause you know my your mom really she oh she understand but she you don't know she don't know the answer now how how to pick an agent or whatnot So like and like the agent can be telling you know your mom like oh we gonna do this and that they gonna fill your head up just so they can about to use you know so like things like that like nobody in my family really took it this far So like you gotta really understand the game understand the age and see who make you feel more of a home then you know more on the business side and who will really take care of you and be there for you And uh I got you know I I had a connection with a good agent And uh ever since then like me and her we locked in you know N David and Ian and like the GSE worldwide like they treated me like a family That's how I supposed to be and that's what it is Like I can call them all you know they call me randomly asking about my family how I'm doing you know stuff like that So like that the Asian part like that's taken care of but more so like you know training like training can be stressful you got family stuff going on everybody you know asking you this and that question and all you trying to do is focus on you know being better you know being better you know trying to get your body at that peak physic you know peak So but at the same time like these are just like numbers you never gonna run again You feel me So like it's like a break and make moment for for you only get one shot you only get one shot and all of it is you know based on what your results are gonna be like how high you jump your your 40 time like you never gonna run a 40 time again So like things like that can be um a very stressful on an athlete Definitely definitely So really you go through the whole process what was it like waiting through the draft Cause

that's a that's a stressful process too Like me and my my roommate you know he um he got signed to the rounds but like he was waiting through the he was waiting through the whole process for three days And like we was at we was in our graduation ceremony he was waiting for a phone call by his agent or a team So I know how stressful that can be for sure Like he wasn't even like worried about getting his his his uh degree he worried about like who about to call him So how was that Just like waiting through But like you said like how he was waiting like I was the last pick of the ja I wait Yeah And like it's stressful because like you say like your stats can be like one of the best top 10 top five You got one of the best stats you know but it's all go off what somebody else say about you You feel me So like just like sitting there you got like I already knew I was gonna have like my whole family there you know just it was just me and my uh household family Like we sat there we watch like it's stressful because her mom asking you so many questions Ain't that the 10 you visit Like OK you see that thing you it in at this moment but I'm I ain't tell nobody but I'm gonna tell you the whole job like what happened at my house So we all just waiting every time like my agent will call my phone like he's like he just heard from bla bla stuff like that My agent calling me like how you doing Like you OK blah blah blah I yes I'm just waiting Uh So my mom she every time my friends kept calling me You good You next man you next keep your you know so every time my phone ring my mom she say that's the team that's the team So I'm like oh my God like your mom I'm I'm gonna let you know you feel me It's making you mad Just just it was just like yeah man like like it's day three now So you and me like you think like man like panting but yeah that's like you get to you get to re evaluate your your whole like did I do it enough Maybe if I would have made this play or maybe if I would have did this better you feel me So it's stressful you know how much you love the game you like it all goes down on this right here you know And so like it was just very stressful and I told my mom I say before a team uh pick me they're gonna call me and then like I'm gonna let y'all know this and that So somebody else like you know random person just call me I pick up the phone like you know I'm cool Hang up now my phone ringing my mom she looking at me she looking at me I pick up the phone I mean I I look at it It's my brother He's sitting behind me So I yeah I would have been he he started laughing he started laughing like that's the most important day you know play trying to play the God I was so like I want to turn around and just clear the whole household that black people for you But then but then like I got a phone call and then they were like I seen

the Rams had uh traded for the last pick I said who the Rams gonna pick I said you know like I kinda I think they don't need me you know so like I think they they good at that position and then like my phone ring I picked it up and like that's what you know I'm like I just couldn't believe it And I I told them like I'm ready right now Like you know I I just find me out right now like you can get so you can get going But like it was a blessed position to be in like how something like that can change your life How is it like feeling like when you just after you got that call like was it like stress relief off your shoulders or or what Uh it definitely was you like it was a for that day it was a stress relief like like damn I gotta pick like it's it's a blessing no matter what pick I you know I was like then like it was just perfect though Like being the last pick more people know your story you feel me So more people gonna go check on like who is this You know Mr Relevant and then like so if you go out there and you ball like everything just looks so good Like on to the story like I said like you know I was blessed like everything was in was in God's hands and he like I said like he picked everything perfect for me He said like you last pick you feel me So I was gonna ask that stream of how you know yeah you get picked and like that's your dream Like you've been working for your whole life and then but it's the last pick though and it's Mr Irrelevant Did that create like some type of some type of fire motivation for you I mean like people look at it like uh that's a bad thing like why they call him people like the name I say oh I got you feel me So I like the name Like I put it as my uh social media name Like I like the name and then like it's something that all your mind you like where you got picked at like you know of course it's motivational Like then you just like every day I gotta be better I gotta be better And then I was like I wanna be the best Mr Irrelevant That was every pick I wanna be the you feel me One of the Mr Ivan ain't never do this Only 1% only 1% of Mr um irrelevance make the team You feel me I was like not like I'm on the team So like like I said like every day is a new goal Got you got you So I'm gonna say who who was the last Mr brother Oh Yeah crazy too I think he just lost his first what two games like he was undefeated as a starter if I'm not mistaken But so you get picked and then you had that mindset So is it like everything you dreamed of as far as like after you get picked you talking to the team you go out and visit the facility So what so on Like how was that that process or how was the feeling It was uh it was like it was something you can't explain Like the feeling was cause like it's still some un unbelievable like real like you'd be walking around you're like damn like I'm really walking through the walls of

the real you know like it's unbelievable then like you so caught up on where you at and stuff you turn around and I'm like oh shit that's ad like I was just gonna get in the house Like I wanna say you literally you get to practice and be around if not the best are gonna be like the best defensive player that that ever played the game Like how how is that though Like cause you you in the you in the presence of greatness literally uh It's a blessing like I act like I then I don't like I mean like we we kick it we talk and I I just be like you know like try not to like oh you know he's super famous this and that like I keep with me who got a great you know you know relationship So then like I know I'd ask him a thing or two here about you know football and stuff like that They're like I just take notes I take mental notes on them like all right then like when you working out I go get extra workout with him Like if he you know doing extra workouts I'm there with him you know getting extra workouts I look at what moves you do you know when he do and you know why he doing my ass I'm like you know why are you doing this and that Then he tell me like you just picking up game like you feel me like you add it to your to add it to too but I'm slowly just stealing in a good way just slowly just just putting it you know and it's a great it's something great like you know like I said it's a blessing cause God works in mysterious ways Like like look the last pick Now I get to work with Aaron Donald and like not only just be like saying like what Aaron Donald doing I'm looking and working out with Aaron Donald So it's it's a great thing and then the rest of the guys are they are like uh J Jonah like I ask some things too you know he tell me like so everybody in the room is like good So is the is the is the Ricky Hazen Is that junk real Uh I mean like we we we focus more on football I'm just you never saw the training camps where they like they make you get donuts they made you get donuts I mean I was at the real facility Stay at ST this guy they made you go get donuts No bro Look we don't eat donuts They take you to the goal post That's crazy You you that's it They take it to you That's what they did to the we are focused on football there That's cool man I just had to ask bro you pay for the well y'all did have Rickie dinner I know I know you had to pay you probably pay the rookie dinner You have to pay for Rickie dinner But you probably have like a little percentage to go into that I'm picking up the tips again That was the last pick I'm the only it was the only D LA pick Kobe Turner He a great guy too Ok He pay for it You do you remember the price man We we broke over here bro Don't don't try to sell out Don't hide nothing from here Don't remember the price I need everything I wasn't trying to look at it You weren't trying to look at the price You said

you picked up tips though as in you was paying like you was tipping the the waiter Yeah Yeah that's what I meant like you know I'm tipping the wait So how much you tip the waiter All right Skip that If you on a date with a girl is you are you TPP I never tip Oh my God No no you don't tip Of course I tip bro Of course I tip I know I'm generous You don't got to tip They ain't gonna never know You know I know there's been a time you lal A is high Yeah L A ain't no like II I order Uber eats and they tip me \$10 I bring customize this \$10 I tripping it L A they text crazy You crazy bro So if you out with a girl and you want to you a question this is you are you gonna answer I'm gonna ask you ask you ask you the question I'm I'm asking the questions here I don't go on dates but I'll be too focus on football Oh my God you do You don't lie bro All right Come on a answer the question No I do not tip You don't tip No Why don't you tip Cause I don't walk around with cash I don't got no you can you you gotta tip literally Literally I know you can saying bro if I tip do I tip it depends on first It depends on what type of restaurant I'm at Yeah honestly and then it depends on what type of food I get and how the service was and it depend on the date too So you should be going on dates Nah I'm just saying that I didn't say I told you how many times were how you been leaving tips around since I've been in LA I ain't been nowhere We haven't So you just been staying in the house chilling in L A in L A in LA I don't probably I it's a new change So how is how is your school and what you be doing there Because I know that like as far as what football is way different from the Midwest for sure like you know how living in the Midwest living in Detroit or you like you're saying growing up in growing up in the hood you look at L A as in like the Hollywood or like the the dream city for sure So like when you get out here you get to see and realize a lot of stuff for sure And then that's how you can like tell like the difference from certain stuff from like people food atmosphere and just like the society bro But I would say I like it It's cool Like definitely I don't have to I don't gotta uh deal about the weather for sure I don't got to worry about no blizzards I don't gotta worry about it being below freezing about shaking You said What what about ok shaking What earthquake Oh no it was a they said it was an earthquake here I didn't feel it though I didn't feel it over I got over It was like not too long ago Do you remember this when we remember It was like a couple of months ago when we was in camp wasn't we Well it was supposed to be like a hurricane or an earthquake or something like a couple of months ago Oh my God I didn't feel it I didn't feel it but I'm me I'm I ain't scared of nothing So I I think the earthquake I'd be cool with that if it ain't no crazy

earthquake If it's like a little shaky shake it'll probably catch me off guard I'd be cool though I'd be good Please get the earthquakes I can't I never really encounter one So I can't say but I'm gonna just say no I ain't scared of an airplane Scared of aliens Aliens I don't believe in aliens Do you believe in aliens No but I believe like we ain't the only no we ain't the only people who like bro I mean planets and well you crazy It is It's a lot of planets but like who we we can't go on no other planets and see what's on there You don't think they can come here and do you think they you think they would have been came by now You don't think they here Like oh I just think I think if it if it was aliens or some type of stuff in that realm something would have been happening for them to like come here So you ain't been seeing nothing Y'all believe in like you said like they be saying fu fa UFO S and stuff like picture I think that's all Photoshop That's just me though because you can do everything on social media That's just me though You can But like I'm saying I really need like live action proof You need an alien in your face and say oh you really like it's too late You don't know what you gonna do Who to say aliens is is evil They probably man and they not we don't know I just my whole thing is my whole thing is this you know how what's a what's a good example how they was on the moon They they they capture dude you feel me landing on the moon If they can do that if they can do that they can capture an alien like a live UFO landing or something like that That's what I think That's just me but to each his own opinion bro OK I'm just saying back to you tried to you tried to like run off on like the tip in the in the dating part You ain't never been on a date over here in L A yet No man just be focused on online Look at me when you look at me when you say that like no look at me in the in the game plans for real and stuff So matter of fact we come from we come from a pretty you know rough surrounding and we get to L A and you in the we get to you basically in your dreams right now You feel me get to your dream and make it to the NFL you on the team and stuff and you know like all the stuff you see on TV that NFL players do as far as like cars women money jewelry all of that the stuff you'd be sharing How um how has that been for you Who's to say I do that Like I'm just saying you ask a question like OK to be honest OK I'll do like this when you first got you ain't got to disclose your check your salary none of that you know you you know you're making uh a pretty good living Ok What's like the first thing you bought I say that first couple of things you bought with your money How do wait how do they feel when they hit your bank account first That's what I wanna know bro I am bro bro We ain't gotta say that's cool We understand

this They like oh bro you got a bonus right Ok You got it's a yes or no that boy it's a yes or no it's a yes or no You got a bonus What I put in my that's what I did You didn't put all of it in your savings You don't got a lot of course I gave I gave my mom some money a lot of you know I get my mom some money uh and the rest like you took care of all the stuff you need to take care of What did you spend on yourself Let's get it to to that I just wanna I just wanna like uh you're gonna be a guy like you said I'm next up so I wanna you know follow your footsteps or if I'm not to follow your other steps I got me a nice little place Mhm Uh You know nice little area got me I just went shopping got some new clothes you know out here because I can ship everything you know things like that Mm I'm just getting my car fixed That's about it bro Yeah that's about you ain't no jewelry No no OK So this is my diary that no this is my diary This is my dad chain That's what I got I got it You know when I was in college Uh so that meant it meant a lot you know at that time like it just meant like like damn I got my dad stuff so I always know keep it on my glasses I had in college Really I don't remember you having in my college other than that was me and we used to see each other quite often because like you said we arrive so the the school was like it was like 30 minutes apart I used to come to Toledo You used to see me in Toledo so I used to see you a lot You ain't never had them glasses on I promise you I got these glasses you ain't had them glasses You got these glasses before I was in the NFL Cool You probably got them like before like on draft Day Yeah But while you was in college before you didn't have you didn't have those before So we gonna we gonna we gonna add that to still in college No you can't add it You you gonna add that to what you spent I also see when you smile It get a light it get a lot brighter in the room and yeah don't close your mouth Don't go ahead Go ahead Cheese You didn't have you didn't have them when we was growing up Nor did you have them when we was at high school or college So from my calculations it seemed like you bought them when you got to the league How much are you spending around if you don't mind I'm trying to think of the right words to say You said they make and say no but it wasn't it wasn't that much wasn't that much right now Give me a ballpark estimate like what's going on estimate I mean it was a lot but it wasn't I'm thinking about what leave me alone Five what 5000 No that's too low I'm sorry I am not like five Ok not five Yeah I'm going you going up So you're looking at 10 Ok look you got all what You got all teeth iced out So that's that cost Yeah so that costs for every one So you 10 So you're looking at about 10 racks 15 No 20 Ok look listen no but listen I got a good deal on

them So you know the jeweler Yeah he actually cool guy You up what's up with your chain Like you what's up you dancing That old guy Actually these are from targeting 899 No use the use the uh Ochocinco Oh that's what you're doing So I listen to Ocho you said go to Claire's I went to Target though Don't believe him Um the chain the chain Fate No Oh wow Hm I'm not gonna disclose no prices I just know I had to do you a gonna say the price of what you pay I had this while I was in college You was just gone You was you was training for the league I pro I promise you Listen I got this for my birthday You was gone training for the league So you wasn't around then in the area I got this in my b I got this for my birthday as a year Yeah Oh wow So I can tell you that Huh Who bought you that Oh You know how people say it takes a village just everybody so everybody tried to check in OK OK How much did everybody chip in Huh I can't how much did everybody chip in I honestly can't tell you I don't know You don't know Yeah I don't know I'm just like I put in a group chat like the the most the people I think they got the money the most that can help me with this I said hey y'all this is what I really wanted Boo boo boo whatever you whatever you gotta do you gotta whatever you gotta do make it happen So just a group chat about 50 people who all chipped in What did they do to make it happen Huh Huh What did they do to make it happen I guess Like they chipped in like how did you like sending any any amount of donation of money to Yeah for a change Agent zero I think once I got the name once I got the number zero and I was doing pretty good for myself I kinda made that like my little alter ego name So I feel like a chain would look nice you know Yeah a lot of people chipped in pretty big chat You got so I'm yeah I a group chat of 50 people anyway it's not about me anyway Um so you talked about the money part but um as far as like just being outside in public do you get do you get like not even I want it don't gotta be like just regular people but like little kids coming up to you like and autograph So uh you know when you've been like when you pick last Mr Resident like you know they fly you out to Newport and you got a whole week of you know Mr Newport California Yeah So they fly you out there and then you uh you get a whole like dedication week a week dedicated to Mr parade So I had a parade and like by pre the uh couple previews just you know Miss I Relevance They all did the same thing and they just so happened that I get picked like everything is just perfect I how everything played out like I get picked by L A and then you know Mr Ir I'm doing everything in LAL A So then like so uh while I was in Newport like I had bar hot I went surfing went uh like every day You

don't know how to surf I do I do you know how to surf They want to put me in a movie How good I was surfing and you should be Did you you was like I got you I got a picture I was up there like it was like catching the wave No I did that I see a picture I never knew how to surf me either but I was out there Uh We had went to uh Disneyland my fam my family they uh they flew out here too So everybody was just enjoying themselves like it was just a whole week of events and the last day it was like they had a banquet you know they they held a banquet and you know everybody just came to the banquet and support it and things like that So but while I was at the events I had to sign like people walk up and they know who you know cause like it's it's a yearly thing So everybody know about the mr irrelevant thing in Newport So kids will walk up and everybody walk up just ask for a signature and like no matter what I was doing I will always get somebody a sign you like it was like I'm tired like I hold on you can't do that you can't do that cause like I'm embracing you know the new lifestyle So it was one and they think about well I think I'd be like I I was watching a sh for real So I definitely like look out for everybody like they would they would come back and like of course you know take your picture no matter how busy I was and it was pretty busy but I always you know did that took pictures and you know sign autographs you be out with your teammates Do you get like a little start Have you saw somebody who was like like somebody famous like oh like that's that's so and so on my team or like out like in public or you know you're in the club or something No not the club I don't go to the club man I'm a child of God bro But uh at the games at the games there'd be a lot of celebrities that always come to the game you know like blue face was uh blue face was their last game Uh like they just be having you know so much like it's like a lot of people like Cedric the Entertainer he came to our facility They uh they barbecue for us and they were like just things like that Terry Crews He came to our facility you know so like they like seeing them guy like the guy that I used to see on TV It's just like wow like I'm really like living a lifestyle and like it's pretty cool Yeah when I be like so you said L A high I think our our facility is like open to a lot of football players Like I came in like the first week of like training summer training and DK Mecca was in there training with us I was like I'm like like what are you doing here It was crazy for real for real Then I walked I walked I walked past Joe Burrow and I didn't even know at first I had to go that will tell you I'm like I'm like is that Joe Burrow Like that's crazy I think what that Prescott was there One It was like a full session It was like a whole bunch of receivers and uh D BS there That was

going crazy It was it's been a lot for real for two changes in there working on
Yeah it was crazy That's how like it is like I just like you you don't
experience that at all That's that's the thing I I say that's what's mo most most
different about like being I you experience a lot of a lot of stuff that you went
experience back home where like you will only see like on TV And I love it
just I hear just so random like you never know what you're gonna see next
Like we just walk out there and just see some crazy dude Like wow it's crazy
Mhm Like you know uh D Wayne Johnson he you know he'd be at the
facility like I said uh you know he went up there he worked out you think
you stronger than him I don't know I don't know You think he's stronger than
me personally Yeah I think I can get him I think that's I think that's all for
looks but that's just me Yeah So uh you would be that Mm Ok I probably
will you know me you know you know where we come from God who was
that one street fighter Never turn that never turn that down What was that one
street fighter name Who that died recently I mean uh uh Kimbo Slice He said
well I beat him up like that You see him walk and he bumped you you you
mistake but it's a mistake If it's a mistake he bumped you but you like you
with your lady Yeah And like you don't think it was a mistake because like
how hard like he bumped you Well if it's a mistake if you I'm you just said if
it's he said I mistake you know but if it's a mistake on his part he gonna say
excuse me you just gonna continue I'm be like if he if he says excuse me I'm
like all right bro he's ok Like I'm like all right we good OK If you like
mistake bump you like he he using his way I'm like I'm like I'm like hey my
man hey you can say hey listen listen listen I'm like hey my man I'm like hey
you should say excuse me you feel me It's gonna be ok And then if you if
you if you if it's a problem you know like I said you know where you come
from east side of Detroit Detroit Detroit you know that's gonna come out of
me I try to try to keep the side of Detroit gonna come out of you wouldn't do
that to me please elaborate So we can know you know how I get um we don't
tolerate disrespect we don't tolerate disrespect quite often Often We try to
keep it cordial for as long as they don't tolerate disrespect what do they do
That's what I'm trying to say What Hm I'm saying like ok anyway he came
he came on come in he bumped your girl disrespectfully and he said yeah I
meant to bump you where you at Ok That's a valid point That's a valid point
Yeah that's a valid point That's the piece Speaking of speaking of of of uh
girls you got a girl No I wish you wish you a lover Boy you a sim Are you
just trying to Yes I say no no boy you crazy It's cool to be crazy bro That's
what they like No I no lover boy Like that's what they like You loving boy

me to to a certain extent What is that A certain extent I'm not a scent but I do like to be love I like to I like you know you a giver like you like the pleasure Yeah you play like that makes you feel good when you play pleasure other people Yeah I like to make other people feel great I love the people I'm just saying ok so like what you you know being in the league you know how you know being in Detroit you know it's a lot of it's a lot of um what's the word I can say Ok Has anybody been in your DM since you you know been drafted trying to get flown out just trying to get your attention Not at you not at you in that Starlight Don't lie No like nobody like really hit me up for that at all Like nobody at all and I didn't do it or would you fly somebody out Would you fly girl out if like if it depends like if like this person mean a lot to me if they wanna come out here of course I'll fly them All right Who wouldn't who wouldn't like or like you're trying to get to know somebody who wouldn't you would What I would you what I would you don't we come from the same place So you don't got a lot of me But that's what I'm saying So you don't got a lot of me So so you wouldn't fly nobody out to try to get to know them you know Its so I mean yes it depends you know No no it's ok It's a hard it's a hard event It's a hard mic Ok What what what like what do they have to have Like my thing is I always go off of this like my whole this is what I always tell myself I'm not flying a girl out until I can fly like my mama or my sister out That's like my whole that's my whole mindset you know So I ain't did IA I put in my shoes ok You give me a lot of right now I try to keep you try I like how you try to you know go around the butch But if you was in my shoes would you me So it really depends on it depends on the girl and like if like how long we've been talking like if she just come out the blue and want to fly I know she only want one thing that she a gold digger into that That's gonna be a no she can fly she can fly herself Out Yeah they won't be for you fly her back home No I won't Maybe if you know if you got a girl from 10 to connect you said what do you have a girlfriend talking to get the trouble You get in trouble we can try to throw me You get a chance What was the question What was the question I said Do you Ok there you go Do you have a girlfriend or somebody you really kicking it with and you really like but they're not your girlfriend yet Out here No out here no OK So out here in L A so you never kicked it with nobody out here in L A kick it what you like Just what you mean by kick it No with a nice little lady I jump you know trying to get to know somebody or like text message and stuff Yeah Face So you mean like face and girl and stuff out here in L A Yeah it's cool You never like kicked it when I get eat kicked that link y'all link you

know what I'm saying Like you saying like like link would be like kicked out like no did you with somebody Did you connect with somebody Like how we like talking right now Did you go talk to somebody Uh No he did But is it hot in hell It will be hot in hell you know not on that type of level So you never went on dates out here And so you just be leaving tips in your dreams because then you just say you leaving tips I I you you said it depends on which restaurant you go to You do leave tips but you say I do leave tips and it also depends on which restaurants I'm going to I I ain't trying to catch you no live because you try to throw me under the bus and ask me some Ok I understand I understand Listen I don't have a girl I do not have a girlfriend I'm not talking to anybody out here in L A Mhm Yeah Is it somebody is it do I got some people in mind that like I could they can potentially be my girlfriend out here in L A in general in general in general in general Yes it's about it's about a few people who a few a few just a slight slight few Ok You know the my um I mean like to if somebody was to be in that like position like a few that you know I could potentially do that I would have to go on dates with them I have So you do go on dates You said I would hear you didn't say nowhere else Ok You didn't say nowhere else I've been on dates with the with the people I've uh you were the people that I got like a idea of or that could possibly be I'd have been on a date with them It's been a it's been like one or two that I ain't been on a date with But that's cool So you're looking to settle down in like really looking to settle down with as in like right now or just I don't know like me I'm on I'm on a mission I'm trying to get to where you at So like you know how that'd be You don't know how that be I'm just trying to get I'm trying to be and I'm on a mission right now So really if I had I'd be I'd be I keep a whole book with you if like I said I'm on a mission right now for real I'm trying to get to lead like that's my first priority between for anything I don't like no distractions or whatever I'm trying to get to get to that cause that's my dream But if I had to if I had the luxury or like the opportunity to have a girl like out here and that I could fully commit to then I would But say if if I was trying to do long distance me personally I don't think I could I don't think No that's impossible You think it's impossible Yeah I think if somebody in a long distance relationship they're not in a relationship Why you say that Come on I say everybody know that I'm just saying bro like so like people would be in the army and stuff they be having long distance they know what happened in the army They be married You been in the army But I know what happened in the arm is crazy You you know you don't know what happened what happened Go

down I don't know bro they go to work every day like they go every day No for real though Like I just feel like me I can't I don't think I'd be able to to to commit to somebody like all the way across the country or just like in long distance in general Only because like I know how I am Like I want like my girl to even be around me or be with me like when need be So that's just me though and they're like I wouldn't be like right Why are you smiling Let go Why you smaller controller You know No that's not controlling that That's not controlling at all How was that controlling you Would you let your significant other go on the trip to Miami by with her with her friends Would you you said what would you let your girl or your significant other Like go to Miami with her friends It depends on the friends I'm not gonna lie She got some decent friends Like ok what type of friends are they though You don't know them they're not your friends they're her friends but they you see them as like they look cool That's the thing I got to know her friends and I know what she you know her friends they they seem pretty cool but you don't know what they do behind your back I'm gonna say it So I'm gonna I'm gonna do it like this I'm gonna say I don't I don't think it's it's good for you to go on a trip just because I don't know them but but you know they they her friends but cool I understand don't act like so you've been you had a girlfriend before right You knew her friend you know who her friends was right You knew you knew who you knew exactly who her friends was How to get down Xy how they get down you know what type of people they was right or wrong is right around That's exactly it's the same same way for me I would wanna know how they get down what type of person that is So would you let so should your girl allow you to go you know to Miami with your boys You out there for sure How is that You said What how is that If she know my if you know the boys Yeah when she know ok she know the boys and she feel like she know what y'all gonna f to be on So she don't let you would you is that a problem I mean it's probably gonna be a problem for her if she really don't want me to go Ok Really This how I go this I go it really depends on it depends on the type of trip if it's like for an event or something No just like she was gonna go with her friends to go to Miami to have fun You gonna go with you but you wanna go to the Miami to have fun without me So you wanna go you wanna go with her and this thing she can go with her friends she can you gotta you gotta meet her No no OK Honestly bro the type of person I am I got eyes and ears Oh my God that was gonna be praying to Jesus how Miami get I know how you know how Miami on the last episode I told people I ain't going to Miami I ain't never been to Miami I

need to go though for sure No no The time I was supposed to go I couldn't go But um yeah I'm a guy pretty high stature and um good you know well known So I know there's gonna be some people around in that area so I'm just saying keep an eye out you know how that be I hear you You know you get to me when you know that time come if they need if you need me But no I don't like like I said I wouldn't wanna I wanna lie to I wouldn't wanna lie to a girl and say like yeah I can give you this this and that and can't commit to that That's yeah that's how I feel For real Yeah You so you don't feel like you don't want to settle down or nobody deep down Like you like deep down you think you like Brent Fire So I know you're a lover boy for sure for sure I mean you not really a lover boy Like he just like you know if you get it you get it If you don't you don't he some girls call him toxic And that's what I mean He he not I don't know he makes his own music I don't think he talks I think he just he like that he released his history Like he talked about what happened in the past He talked about what he happened in his relationships and I'd be like damn I feel like like so I mean I connect to the music I was like yeah like cause I feel like I've been through this Xyz before so in that opinion of it So yeah but like I said I I deep down you'll be like damn like settling down would be cool But like like you said you you focus right now and the last thing you I wanna do like come to get to lead and not be focused So you think a girl is a distraction for you they can be your biggest distraction They can be your biggest help Depends on who you pick right So you don't got nobody in mind right now That can be like your biggest helper Jesus What you talking about You not talking about Jesus We talking about females right now We're talking about we're talking about females right now OK Do you do you have somebody just like you asked me do you have somebody that you have in mind that is that could be your potentially biggest helper or biggest distraction How you put it Watch this I feel like I can or like I could have somebody but at the same time like the position like a man a lot of people don't be like in that position So it's kinda hard to pick and choose who you can honestly trust and be there for you or are they there for who you are You feel me Yeah So like it's it's kinda hard to pick So like my shoe that's why I said I'm more so focused on football But if God like put somebody in my life at you know at the right time like without me having to force anything or them having to force or relation you know things like that and I just call it So you said you don't know if they're there for your money I say that that that I did not say that I said I said you don't know if they there for you you are or who you are and when you say who you are you mean an

NFL player That's that has that's that's wealthy that has a good amount of wealth to them That's what you're saying And that has a high stature So if you say that now what makes you think it's gonna be different later That's why I'm saying that that's it Like I I understand that and that's why I say like it's hard because you don't know you know the position you're in like you just gotta trust That's why I say like if God put somebody in my you know way like God put somebody in my path and that's what it is I remember asking God like God I said God like can you like you know you know remove all distractions you know things like that You ever you ever pray to God like you know ask him to remove all distraction you're trying to lock in get it and if they're not meant to be they're not meant to be that shit that happened so fast You like your best one Like so like things like that be be crazy That's crazy You ever saw you saw the um the debate about um it was a list created about where uh girls they should uh go for a first date Mhm You saw the list No What what did you say Let's look on the phone I I screenshotted it was it like a bad list and kind of what you gonna ask where would I take a girl on the first date A little bit a little bit Not for real but just just stay with me OK I got this The this is the list They say they say they can't go to Cheesecake Factory No Applebee's no chilies No Chipotle No Olive Garden You can't take her to the movies Can't take it to your house cause why would you want to take it to your house Right I mean uh they said no fast food no fast food chain Of course I ain't gonna take no good at mcdonald's Uh no no Buffalo Wild Wings no wing So no Red Lobster No no buffet eating that They said no I hop no Denny's can't take a girl to the gym This really took me They said you can't take it You shouldn't take her to church for a first date Um No Starbucks No coffee dates no ice cream dates no family functions So you can't invite her you can't invite her to and then you can't introduce her to and then at the family first On the first day You not me my people Movie night they said no movie night Netflix No hu uh they said somewhere that requires a long drive no bowling nightclubs hookah bar that requires a long drive I don't know what that means I don't think we won't make it where we going cause me driving three hours now right So you about that though I feel like she gonna be starving Took away all everything take away all of you trying to they they basically said they gotta go to a high end restaurant So like the first day I don't even know if you're gonna be cool I show you something I would say like more so on the third or fourth date then you can take her to that type of area in the restaurant but first date So if she's if she's if she's a girl of of high value or she has a she keeps herself up

you feel me keeps herself up to par and you know that are you taking her to like the high end restaurant for like the first day And y'all can get y'all texting first y'all hit it off Well www you taking it into the high end I wanna say it depends but me knowing who I am No but it do depends like II I will you know we will and we can do that But if if this is like what it's gonna be every time like I gotta take you to one of these high That's not it But for the first day I I wanna go somewhere where me her can have like have a connection like the r I feel the same way Like I'm not just gonna take you and spend five K on the meal Like that's not realistic Like you know what I could deal with that I wish I could go back in time right now I said no I know what you did You know what I did I said I love you a lot But no I feel the same way Like me I had to go interaction type of type of deal like arcade But then I kinda feel like a uh like we kinda grown now so like it that kind of child It's not like it's kind of like you know I'm no I'm not saying I feel I I'm saying like I feel like in the back of my head like she thinking to herself like no he did not just to an arcade Like this is childish I would kinda like yeah but but honestly like you know like the perfect though I'm going bowling though Oh my God I love going bowling That's my favorite hobby man Like I beat you bowling You won't we can go we can go What's your high score Yeah I don't lie either I don't know but we can go It was like you know one thirties Yeah See that's not even that's not even my average bro It's not No you a pro bowler I consider myself I consider myself to be yes you get paid to bowl I can I can do that I could I could get paid the ball You you got you have a bowling ball Yes Correct You I'm weird That's some of my favorite I like to do Yeah II I do wanna get a bowling ball but I never 267 Highest score But yeah you wake up from that dream No cap There's no cap And I got people that can vouch for it You got for a new phone So it's a new phone I can I can I can call somebody I had 270 something I'm having This is a this is a new phone call I got a new phone with old pictures in it No Yes I do My phone got stolen and oh my God who stole your phone I don't I'm a pretty famous guy man Oh my God They trying to spill the tea on me anyway No anybody can You they was there I won't lie It's ok bro You don't got ok Ok 260 Yeah but sorry So you said you like b 6267 to be exact at the at the at the seven points You said you like going bowling So you would let would you let a girl win No I'm I'm like I'm not I'm not letting you nothing like we racing ST are you gonna push her No I won't push her but I'll win I'll block her out you know but she won't be close to me Of course you know I'm competitive like I can't let you win in nothing Do you think that like that

hinders you in some type of in in a sort of way No no I feel like it's just like being too competitive or hurt your hurt hurt the relationship No not at all cause it's like shit Feel like everything is a competition with you now and she don't wanna compete with you You ain't compete with me but I'm being the best person to meet every day That's why I'm competing with myself Yeah You like that one Yeah I know I know but in in cases like that like you ain't gonna compete with your like like we doing the activity together like that's what makes it more fun like you I uh I won this time but then there be time like they win you be like damn like she will be talking about this all day you know stuff like that So like that's that that brings a fun out of each other you know when you know like she she really was trying to win and you really trying to win and she know winning like them I gotta whoop her next So I know things like that So yeah like you know if I was in a relationship like that's how things would be All right man What Let's name the top your top five NFL players of all time and current we can go all time and current not do that No you want me you want me to you want me to go into specific defensive players We grow up we we need we need I need current and all the time but it can be it can be any type of player It can be defensive players Which one growing up I didn't really watch and I feel like I wasn't like a big you you can go to college I wasn't like college watching players Like I literally just played football I love playing football You know I was in the streets you know I was running around I'm talking but yeah like growing up I was more so like just like playing football I was never like uh who won all that such and such as this is it I got into that Like like I say like early college cause everybody in college was talking about who is this and who is that And I'm like who y'all talking about Like things like that But that also helped me it kinda helped me in a way because like when you out there and you playing you not thinking about like oh this is such such with you know all this and this and that you just out there playing with somebody you feel me you just bringing your best to whoever across from you So that's why I think like I beat somebody and they be like bro you know that's that such and such and such I'm like I'm just out here playing football so I can't really you know but I also do like know a lot of football but I you know NFL players I still need your top top five your favorite player You don't gotta be an order You don't gotta be an order I don't gotta be order Uh no it's a weird so we got all day this all time occur DK to mo my silence Mhm And Donna Matthew Stafford Megatron and you being biased But that's cool All right That's all that's all you know that because we grew up watching them but you also you

didn't play on the team you play on the team but all right All right That's all that's all time I'm just naming I'm just naming like my favorite players in the league right now and Donald is one of them Uh Chasi Goldson Desmond Kane You name all people we went to school with they're my favorite players Who are you talking about Like come on what you want for me bro I got no like my favorite player Like that's how I am I watch the guys that I know that I grew up with like things like that who your favorite players of all time I just name name a couple of your favorite players Um Des W de w so full of Dew Johnson man Favorite player man What how is he your favorite player Like what makes you man I just like I know me like we didn't grow up together like I know how he is I know what type of player he is I know like he real physical he his tenacity I feel like me personally I bring that out of him when we was little and practice but I ain't gonna get into that I got a question So how was he playing against him Don't cut me off How is he playing against him Can you can I name my my top players please Yeah that's Juan Johnson But no you wanna go all you want all time For real for real Um Barry Sanders He's a dog that was my favorite player growing up Uh Barry Sanders Randy Moss every mhm Trey Polamalu and the the defense by is it it's like a a 20 way tie between a lot of people I like uh Clay Matthews too Clay was pretty good Clay Matthews was hard but he was pretty good Like the 2010 Lewis Yeah of course Like I used to watch his video It's like it's people like that like yeah like you just can't deny like yeah they was one of the best but like just like my like my favorite for me Like it's a lot I could put it in a fish spot for sure Um What would you want to ask me Oh I was just gonna say like how was it planned against Like how was it you know playing against me playing against like we played against each other Like how was it It was cool man Good competition Uh Sometimes I feel bad I had to like rough you up like that but you know it's a part of the game football like that for for real No it was it was it was like it was fun because like I see you make a play I like like you kinda rooting for you would be like chill But you know it was like like yeah that's my *** like I mean that's my like that Yeah Jordan I like I was rooting for you in a way But then like when I stepped on the field it was like mm no everything was over like when you when you call a pic I'm like there's no way I said it to myself like there's no way to let him catch a pig bro No way There's no way to let him catch a pic but it's cool Your your nickname is Boots Tell the people how you got your name Boots So which I think is very just crazy to me But but that uh who was dating like dating like five and 65 and six like like 56 you gotta be you

gotta just be turning six really Seven But we we cheated How about that We ain't cheated We was just sweet like that younger guys you can play with it But I was five I was five turning six and like my mom like what you wanna do you know for your birthday you know like you know this is like my dad recently passed not too long ago so like I wanna go you know play football and we went on Harper and Conor with the title was that and ever since I I was there like my I had on my little birthday fit You feel me I had on some TIMS I had on some Timberlands and like my little fit So I went up to coach Mo and uh he like you know like what's your name son I'm like Des One He said who does who I'm like Des One So like later on in practice he kept forgetting my name So that day he seen he seen I had on Timberland So he like uh he said hey Dean I'm like that's Juan He told me so I'm gonna just call you boots You know he looked at I'm gonna just call you boot his neck And like for the first couple of weeks I was I had no boots at practice I don't know Tim at practice So like that name stuck with me like boots stuck with me Then like then later on in my career like when I was in uh college like the college was close to home So some of the guys from uh home like I was on my college team like Deontay Johnson you know he know me as boot So like it traveled like Sam Womack he knew me as boot So he traveled to college as well So that name then like while I was in college coach mo pa you know he know he passed away So like it meant more like you know like I'm like like I'll be it was kinda weird here you know somebody called me that one I'm like who who said that You know because everybody knows so yeah And so I just stuck with it and it's still with me to this day Yeah TIMS at practice Practice is in that's how that's how good I was I didn't even have to wear cleats I'm like let me go heavier I was looking at you like I don't know who you think he is but you're crazy I would be like I never I never I boo at my ma you know miss never let me come out there boo in practice We crazy Yeah Birthday fit game Anyway you said your top five of all time She top off currently Oh yeah All right What's the what's the greatest of all time player though I'm actually grace all the time A lot of a lot of stuff but we gonna go play first in your in the NFL in your opinion in my opinion and uh I got a ballot What you say No I that's that's actually valid that's actually valid to like his stats for like how long he's been in the league It's crazy and knowing like seeing it like first hand like how much work and like you doing some of this shit like some of the stuff you like bro you tripping like it'd be like like that's why but it's good like cause you take the little notes but things like that you like yeah that that's how why he's the best right But that's my

opinion greatest of all time basketball player who got lebron I like lebron and I like Curry and I like Jordan but I like Kobe as well I do I feel like people don't give Kobe enough Uh He was him enough respect in the in the go category but he's definitely not picking them but I feel like they don't give you picking you picking bra Yeah I got Jordan That's just me though I think you want to make sure I pick Brian So you pick it I never made Brian my goat ever OK Is he fired Yeah Is he is he a goat status Of course Yeah I just like I feel like Jordan like really like set like the standard for a lot of stuff but like people I mean I feel like lebron played back OK I said OK you know he I'm just saying he didn't play back then But I feel like if he did got doctors checking them I'm just saying we said greatest basket What's the greatest what's the greatest shoe in your opinion Like whooping shoes No just shoes in general It's a one it's it's a it's one correct answer and I wanna see if you're gonna say it but of course the Air Force one like what you want White Los Man I'm glad I got among guys but I do I got a pair of White Los I got a pair They didn't go with the fit today go with everything everything And then I feel like the the ducks went better with the with this fit of ducks We're still All right We said we said you got money huh You just got money Angels is crazy This is old bro I got this back in is no it's not It's fairly used It's not it's not I don't think you can ever be out I got money though How much how much your glasses cost We do a fit check No no no Oh no She was real for me No Uh probably like uh six Just the glasses 67 Just the glasses Dallas Huh Dallas Dallas just in what world I wish me too But but yeah about 67 whatever All right You said the greatest you said the greatest football player greatest basketball player said the greatest shoe greatest of all time What's the worst of all time Shoe What's the worst of all time Like fashion trend like that happened over the years The hills You don't like hills Oh my God What hills is great You like Hi Iii I think I remember seeing in fired back then You don't like hills They no that's crazy Like like you if you if you had to like you know like you would put him in him I would never wear we was like when I was like six Ok So why is that not Cannot be on the worst I feel it's like back in the time when it first came out it was something different like oh my God you can slide But then what like I used to be like that's what that is you know OK you said at least I think the worst worst fashion trend probably was the the emoji emoji people used to wear uh emoji shirts pants and stuff No the the see through uh boots I hate it Oh The see through shoes you can see the So yeah I think it's the emoji the emoji pants and and the bootcut jeans Like they used to have you have bootcut jeans with I used to I used to cut the I cut

the side No that was that sucked I'm not gonna lie You look back at it That's bad I'm really disappointed in myself that I went out and got some some emoji pants before you got emoji pants It was joggers and they had the 100 sign on both sides I say a lot about you bro What Emoji pants Emoji Pen don't act like you ain't have uh some some bad fashion stuff because I I remember back in the day I had uh I had some bad stuff I'm trying to think I wore something white and it was the dumbest thing I should have you know never did I never had emoji though for sure Ok I had uh no no go ahead What you say on the topic I good You can joke on me No I'm shoot Anyway what you said the worst the worst trend What was I about to ask Oh yeah this is the last question of the day What's the um what is a must that a girl must have for you For like for you What's a must that a female must have Like she got for me It's like body wise She gotta have a she gotta have lips she gotta have booty or do she gotta be smart She gotta be funny She gotta know how to cook She got how to dress Should I not to dance Should I not sing I mean honestly it don't give me don't try to give me no like watered down type of response Give me the real response please I just feel like honestly of course like cooking and stuff come with it But that's not a must like you feel me but that I would love a female that can cook like I really want a female that can cook like you feel me I uh I'm a you know I need to eat but mostly AJ like she gotta be genuine and anything she do like in our connection just gotta be genuine like it ain't like no if y'all get into arguments you feel you feel like you remember I had to go do this Not you wanna do I'm like yeah that's not why I make up all stuff things like that So somebody that is when I feel like it's always like a good you know something to have because you know no matter what you do like she did cause you know she care for you know things like that and like no matter like there's somebody that you could depend on in the long run or just in life What about you Me I said she I know how to cook That was one of them That was one of them But um but no I really I don't matter about that You don't matter about body wise We go into that but I ain't gonna get into that right now I go into that We can get I get into that right now I go into that I'm just saying like the people know what do the people really want to know what you cause like you around there a lot of times because you know you NFL stars y'all be all out and stuff around That's where you trying to go to the I be around all that Huh OK I wanna be around it I'm just saying I'm not gonna say I'm not saying that I don't it's great to experience it it's great to experience it It's great to express how do you experience that joy I'm just saying Anyway have you ever experienced

that anyway Um So you didn't have me think about it You think about it You got that anyway Uh Let me see I see a cooking but besides that I would say you have understanding like with me like just with us like having like a busy schedule and like just the the load of everything we have and say if we have like a a bad day at at practice or like not even a bad day at practice But along the way you feel me family issues or like endorsement issues and stuff like that in the sports world just like knowing that um we can't we're not like superman you feel me Like we can't just like cut it on and off You feel me like it's gonna bother us or just like even if like we was busy like say like how you were saying like I was saying like long distance relationships like just understanding like yeah we can't talk 24 7 and stuff like that or not even long distance but like just in general can't talk 24 7 because you can be busy and stuff like that or just understanding like growing like real world problems type stuff So like somebody that hounded you is that a turn off How they like always wanna be like what you doing Where you at Like blah blah blah Who I just Yeah it's getting it's getting real fed like type of type of girl I feel like because where we from you know people getting set up for real I like what you trying to set me up or something like that like what you like why do you wanna know where I'm at so bad but like it's like co being persistent is cool like me I I'm persi if I really want something I'm gonna be persistent Of course you feel me so like being persistent to a certain extent is cool But then like when you egging on we like yeah like what you doing where you at Why you answer you want me down You're not my girl that yeah that's definitely a turn off for sure But like if you like if you do it just a little bit asking OK like you really trying to yeah you really trying to make sure I I acknowledge that but if it's just straight just you feel me constant nagging and negativity Yeah Cut that I feel it bro Cut this adding more stress Yeah it's the same for you or you you deal with that like I deal with that I'm asking a question No of course Uh Nobody I think nobody would want to deal with that at all Like you know somebody always up your back trying to figure out what you doing where you at who you with what they doing like you know things like that like it's it's like girl I'm like you know I'm trying to do this and that like I'm I'm busy like you say you always not there like I'm still chasing you know my dreams like you know things like that I'm just because I made it I don't mean I made it this is just the opportunity I still wanna continue to build every day every day but you trying to stay here you feel me So it's it's that like you can't deal if you wanna be great you can't deal with this and have the outside negative energy coming in because all they

doing is just messing up your you not not you not thinking straight So no So somebody like I said it could be a good thing and bad thing Somebody can also be your peace But like you know it's it's gonna be hard to find somebody like that So it's cool bro You all right That's the last question That's the last question Look you you um you get up there in age a little bit little tabi where people start selling Now you think about having kids anytime soon I mean like if it's in God's plan I'm not you know running from it not running from it if it's in God's plan But I mean you mean how many do you think Sure estimate probably 322 with the right one What's the right one mama I mean like know who I mean like what's wrong with baby mama Like I don't see nothing wrong with baby mama but like I would you know I would rather be married and living in the same household like dude like I couldn't been brought up you know like change narrative like change things around I'd rather take it that route But you know maybe mama if you got if I got to I mean if I got to I got to but I I gotta have it cause a fucking job Would you do you think about kids Single Oh no not at all No I'm I'm gonna have kids for sure I wanna but if if you just something happened like you know life is just oh no I'm very uh I'm gonna make sure nothing happened How do you do that Huh How do you do that Yeah Besides you know just be careful Yeah you gotta be disciplined That's the whole it's all about discipline I think I'm a very disciplined Individual I feel like that like discipline like but when the time comes though like once I get in the league and stuff you know I got got my my got my money my stuff in order Um I got the right individual The right little lady with me start building my dream team Definitely That's a goal Yeah My dream team make sure that's the right lady too bro I just stay positive every day I feel like you're gonna be the you're gonna be the first one for sure But all right bro this is the real and real and raw podcast agency bro man Thank y'all for tuning in man See you
